GOVERNMENTAL ACCOUNTING PRATICES AND REGULATIONS

School district accounting practices will follow state and federal laws and regulations, generally accepted accounting principles (GAAP) and the uniform financial accounting system provided by the Iowa Department of Education. As advised by the school district's auditor, determination of liabilities and assets, prioritization of expenditures of governmental funds and provisions for accounting disclosures shall be made in accordance with governmental accounting standards.

In Governmental Accounting Standards Board (GASB) Statement No. 54, the board identifies the order of spending unrestricted resources applying the highest level of classification of fund balance – restricted, committed, assigned, and unassigned – while honoring constraints on the specific purposes for which amounts in those fund balances can be spent. A formal board action is required to establish, modify and/or rescind a committed fund balance. The resolution will state the exact dollar amount. In the event, the board chooses to make changes or rescind the committed fund balance, formal board action is required.

The Board authorizes the board secretary to assign amounts to a specific purpose in compliance with GASB 54. An 'assigned fund balance' should also be reported in the order of spending unrestricted resources, but is not restricted or committed.

It is the responsibility of the superintendent to develop administrative regulations implementing this policy. It is also the responsibility of the superintendent to make recommendations to the board regarding fund balance designations.

DEBT MANAGEMENT POLICY

DEBT LIMITS

Credit Ratings

The school district seeks to maintain the highest possible credit ratings for all categories of short- and long-term debt that can be achieved without compromising the delivery of services and the achievement of adopted objectives. The school district recognizes that external economic, natural, or other events may from time to time affect the creditworthiness of its debt. Nevertheless, the school district is committed to ensuring that actions within their control are prudent.

Debt Limits

For general obligation debt, the school district's outstanding debt limit shall be no more than five percent (5%) of the actual value of property within the school district's boundaries, as prescribed the Iowa constitution and statutory restrictions.

For revenue debt, the school district's goal is to provide adequate debt service coverage of at least 1.20 times the annual debt service costs.

In accordance with Iowa law, the school district may not act as a conduit issuer or issue municipal securities to raise capital for revenue-generating projects where the funds generated are used by a third party ("conduit borrower") to make payments to investors.

PURPOSES AND USES OF DEBT

Capital Planning

To enhance creditworthiness and prudent financial management, the school district is committed to systematic capital planning, intergovernmental cooperation and coordination and long-term financial planning.

Capital Financing

The school district may issue long-term debt for capital projects as authorized by Iowa law, which include, but are not limited to, the costs of planning, design, land acquisition, buildings, permanent structures, attached fixtures or equipment, and movable pieces of equipment. Capitalized interest may be included in sizing any capital project debt issue. The types of debt instruments to be used by the school district include:

- General Obligation Bonds
- General Obligation Capital Loan Notes
- Bond Anticipation Notes
- Revenue Anticipation Notes
- School Infrastructure Sales, Services and Use Tax Revenue Bonds
- Lease Purchase Agreements, including Certificates of Participation

Working Capital Financing

The school district may issue debt for working capital for operations after cash flow analysis has determined that there is a mismatch between available cash and cash outflows. The school district shall strive to repay working capital debt by the end of the fiscal year in which the debt was incurred. A Working Capital Reserve may be included in sizing any working capital debt issue.

DEBT MANAGEMENT POLICY

Refundings

Periodic reviews of all outstanding debt will be undertaken to determine if refunding opportunities exist. Refunding will be considered (within federal tax law restraints) if and when there is a net economic benefit of the refunding or if the refunding is otherwise in the best interests of the school district, such as to release restrictive bond covenants which affect the operations and management of the school district.

In general, advance refundings for economic savings will be undertaken when a net present value savings exceeds three percent of the refunded debt can be achieved. Current refundings, which produce a new present value savings of less than three percent will be considered on a case by case basis taking into consideration bond covenants and general conditions. Refundings with negative savings will not be considered unless there is a compelling public policy objective for doing so.

DEBT STANDARDS AND STRUCTURE

Length of Debt

Debt will be structured for the shortest period consistent with a fair allocation of costs to current and future beneficiaries or users. Long-term debt will not be issued for periods exceeding the useful life or average useful lives of the project or projects to be financed. All debt issued will adhere to state and federal law regarding the length of time the debt may be outstanding.

Debt Structure

Debt will be structured to achieve the lowest possible net cost to the school district given market conditions, the urgency of the capital project, the type of debt being issued, and the nature and type of repayment source. To the extent possible, the school district will design the repayment of its overall debt to

rapidly recapture its credit capacity for future use.

Generally, the school district will only issue fixed-rate debt. In very limited circumstances, the school district may issue variable rate debt, consistent with the limitations of Iowa law and upon a finding of the board that the use of fixed rate debt is not in the best interest of the school district and a statement of the reasons for the use of variable rate debt.

All debt may be structured using discount, par or premium coupons, and as serial or term bonds or notes, or any combination thereof, consistent with Iowa law. The school district should utilize the coupon structure that produces the lowest True Interest Cost (TIC) taking into consideration the call option value of any callable maturities.

The school district will strive to structure their debt in sinking fund installments for each debt issue that achieves, as nearly as practicable, level debt service within an issue or overall debt service within a particular classification of debt.

Derivatives (including, but not limited to, interest rate swaps, caps, collars, corridors, ceiling and floor agreements, forward agreements, float agreements, or other similar financing arrangements), zero-coupon or capital appreciation bonds are not allowed to be issued consistent with State law.

Decision Analysis to Issue Debt

Whenever the school district is contemplating the issuance of debt, information will be developed concerning the following four categories commonly used by rating agencies assessing the school district's credit worthiness, listed below.

Debt Analysis – Debt capacity analysis; purpose for which debt is proposed to be issued; debt structure; debt burden; debt history and trends; and adequacy of debt and capital planning.

Code No. 704.2

Page 3 of 4

DEBT MANAGEMENT POLICY

Financial Analysis – Stability, diversity, and growth rates of tax or other revenue sources; trend in assessed valuation and collections; current budget trends; appraisal of past revenue and expenditure trends; history and long-term trends of revenues and expenditures; evidences of financial planning; adherence to GAAP; audit results; fund balance status and trends in operating and debt funds; financial monitoring systems and capabilities; and cash flow projections.

Governmental and Administrative Analysis – Government organization structure; location of financial responsibilities and degree of control; adequacy of basic service provision; intergovernmental cooperation/conflict and extent of duplication; and overall planning efforts.

Economic Analysis – Geographic and location advantages; population and demographic characteristics; wealth indicators; types of employment, industry and occupation; housing characteristics; new construction; evidences of industrial decline; and trend of the economy.

DEBT ISSUANCE

Credit Enhancement

Credit enhancements (i.e., bond insurance, etc.) may be used but only when the net debt service on the debt is reduced by more than the costs of the credit enhancement.

Costs and Fees

All costs and fees related to issuing the debt will be paid out of debt proceeds and allocated across all projects receiving proceeds of the debt issue.

Method of Sale

Generally, all school district debt will be sold through a competitive bidding process. Bids will be awarded on a TIC basis providing other bidding requirements are satisfied.

The school district may sell debt using a negotiated process in extraordinary circumstances when the complexity of the issue requires specialized expertise, when the negotiated sale would result in substantial savings in time or money, or when market conditions of school district credit are unusually volatile or uncertain.

Professional Service Providers

The school district will retain external bond counsel for all debt issues. All debt issued by the school district will include a written opinion by bond counsel affirming that the school district is authorized to issue the debt, stating that the school district has met all Iowa constitutional and statutory requirements necessary for issuance and determining the debt's federal income tax status. The bond counsel retained must have comprehensive municipal debt experience and a thorough understanding of Iowa law as it relates to the issuance of the particular debt.

The school district will retain an independent financial advisor. The financial advisor will be responsible for structuring and preparing all offering documents for each debt issue. The financial advisor retained will have comprehensive municipal debt experience, experience with diverse financial structuring and pricing of municipal securities.

The treasurer shall have the authority to periodically select other service providers (e.g., escrow agents, verification agents, trustees, arbitrage consultants, rebate specialist, etc.) as necessary to meet legal requirements and minimize net debt costs. These services can include debt restructuring services and security or escrow purchases.

Code No. 704.2

DEBT MANAGEMENT POLICY

Compensation for bond counsel, financial advisor and other service providers will be as economical as possible and consistent with industry standards for the desired qualification levels.

DEBT MANAGEMENT**Investment of Debt Proceeds**

The school district shall invest all proceeds received from the issuance of debt separate from the school district's consolidated cash pool unless otherwise specified by the authorizing bond resolution or trust indenture. Investments will be consistent with those authorized by Iowa law and the school district's Investment Policy to maintain safety of principal and liquidity of the funds.

Arbitrage and Record Keeping Compliance

- 1) post-issuance compliance procedures (including proper use of proceeds, timely expenditure of proceeds, proper use of bond financed property, yield restriction and rebate, and timely return filing);
- 2) proper maintenance of records to support federal tax compliance;
- 3) investments and arbitrage compliance;
- 4) expenditures and assets;
- 5) private business use; and
- 6) designation of primary responsibilities for federal tax compliance of all bond financings.

Financial Disclosure

The school district is committed to full and complete financial disclosure, and to cooperating fully with rating agencies, institutional and individual investors, other levels of government, and the general public to share comprehensible and accurate financial information. The school district is dedicated to meeting secondary disclosure requirements on a timely and comprehensive basis, as promulgated by the Securities and Exchange Commission.

The Official Statements accompanying debt issues, Annual Audits, and Continuing Disclosure statements will meet the standards articulated by the Municipal Securities Rulemaking Board (MSRB), the Government Accounting Standards Board (GASB), the Securities and Exchange Commission (SEC), Generally Accepted Accounting Principles (GAAP) and the Internal Revenue Service (IRS). INVESTMENTS

School district funds in excess of current needs are invested in compliance with this policy. The goals of the school district's investment portfolio in order of priority are:

- To provide safety of the principal;
- To maintain the necessary liquidity to match expected liabilities; and
- To obtain a reasonable rate of return.

In making investments, the school district will exercise the care, skill, prudence and diligence under the circumstances then prevailing that a prudent person acting in a like capacity and familiar with such matters would use to meet the goals of the investment program.

School district funds are monies of the school district, including operating funds. "Operating funds" of the school district are funds which are reasonably expected to be used during a current budget year or within fifteen months of receipt. When investing operating funds, the investments must mature within three hundred and ninety-seven days or less. When investing funds other than operating funds, the investments must mature according to the need for the funds.

The board authorizes the treasurer to invest funds in excess of current needs in the following investments.

- Interest bearing savings, money market, and checking accounts at the school district's authorized depositories;
- Iowa Schools Joint Investment Trust Program (ISJIT);
- Obligations of the United States government, its agencies and instrumentalities; and,
- Certificates of deposit and other evidences of deposit at federally insured Iowa depository institutions.

It is the responsibility of the treasurer to oversee the investment portfolio in compliance with this policy and the law.

It is the responsibility of the treasurer to bring a contract with an outside person to invest school district funds, to advise on investments, to direct investments, to act in a fiduciary capacity or to perform other services to the board for review and approval. The treasurer will also provide the board with information about and verification of the outside person's fiduciary bond. Contracts with outside persons will include a clause requiring the outside person to notify the school district within thirty days of any material weakness in internal structure or regulatory orders or sanctions against the outside person regarding the services being provided to the school district and to provide the documents necessary for the performance of the investment portion of the school district audit. The compensation of the outside persons will not be based on the performance of the investment portfolio.

It is the responsibility of the superintendent to deliver a copy of this policy to the school district's depositories, auditor and outside persons doing investment business with the school district.

It will also be the responsibility of the superintendent, in conjunction with the treasurer, to develop a system of investment practices and internal controls over the investment practices. PURCHASING – BIDDING

The board supports economic development in Iowa. Purchases by the school district will be made in Iowa for Iowa goods and services from a locally owned business located within the school district or from an Iowa-based company which offers these goods or services if the cost and other considerations are relatively equal and they meet the required specifications. When spending federal Child Nutrition Funds, geographical preference is allowed only for unprocessed agricultural food items.

Prior to August 15 of each year and after analyzing the school district's anticipated procurement level for the current fiscal year, the school board will set a goal of ten percent of the anticipated procurement level to be purchased from certified targeted small businesses. In determining the procurement level, the cost of utilities (heat, electricity, telephone and natural gas) and employees' costs will not be included. After the goal has been established, the superintendent will file the required Targeted Small Business Procurement form with the Department of Education by August 15.

By July 31 of each year, the superintendent will file a report with the Department of Education outlining purchases of goods and services from targeted small businesses for the previous fiscal year.

The school board and superintendent will encourage targeted small businesses which are not certified with the Department of Inspections and Appeals to become certified targeted small businesses.

It is the responsibility of the superintendent to approve purchases, except those authorized by or requiring direct board action. The superintendent may coordinate and combine purchases with other governmental bodies to take advantage of volume price breaks. Joint purchases with other political subdivisions will be considered in the purchase of equipment, accessories or attachments with an estimated cost of \$50,000 or more.

The superintendent will have the authority to authorize purchases without competitive bids for goods and services costing under \$10,000 without prior board approval. For goods and services costing more than \$10,000 and less than \$100,000, the superintendent will receive competitive quotes of the goods and services to be purchased prior to approval of the board. Competitive sealed bids are required for purchases, other than emergency purchases, for goods and services that cost \$100,000 or more, including construction contracts and school buses.

When using federal Child Nutrition funds to purchase goods and services, dollars spent annually must be estimated. It is acceptable to categorize (e.g. groceries, milk, produce, small equipment, large equipment, supplies, and chemicals). A formal sealed bid procurement process is required when annual spending in

the category exceeds \$100,000 annually. An informal process is used for all other purchases under the threshold annually. Documentation of informal procurement activity is kept on file.

The purchase will be made from the lowest responsible bidder based upon total cost considerations including, but not limited to, the cost of the goods and services being purchased, availability of service and/or repair, delivery date, the targeted small business procurement goal and other factors deemed relevant by the board.

PAY DEDUCTIONS

The district provides leaves of absences to allow employees to be absent from work to attend to important matters outside of the workplace. As public employers, school districts are expected to record and monitor the work that employees perform and to conform to principles of public accountability in their compensation practices.

Consistent with principles of public accountability, it is the policy of the district that, when an employee is absent from work for less than one work day and the employee does not use accrued leave for such absence, the employee's pay will be reduced or the employee will be placed on leave without pay if:

- the employee has not sought permission to use paid leave for this partial-day absence,
- the employee has sought permission to use paid leave for this partial-day absence and permission has been denied,
- the employee's accrued paid leave has been exhausted, or
- the employee chooses to use leave without pay.

In each case in which an employee is absent from work for part of a work day as outlined above, a deduction from compensation will be made or the employee will be placed on leave without pay for a period of time

which is equal to the employee's absence from the employee's regularly scheduled hours of work on that day.

MEAL CHARGES

In accordance with state and federal law, the Essex Community School District adopts the following policy to ensure school district employees, families, and students have a shared understanding of expectations regarding meal charges. The policy seeks to allow students to receive the nutrition they need to stay focused during the school day, prevent the overt identification of students with insufficient funds to pay for school meals, and maintain the financial integrity of the nonprofit school nutrition program.

Payment of Meals

Students have use of a meal account. When the balance reaches \$0.00 a student may charge no more than \$5.00 or 5 meals to this account. When an account reaches this limit, a student shall not be allowed to charge further meals or a la carte items until the negative account balance is paid. Families may add money to the student's account through electronic payment options, pay at the school office by cash or check as allowed.

Students who qualify for free meals shall never be denied a reimbursable meal, even if they have accrued a negative balance from previous purchases. Students with outstanding meal charge debt shall be allowed to purchase a meal if the student pays for the meal when it is received.

[Employees may use a charge account for meals, but may charge no more than \$10.00 to this account. When an account reaches this limit, an employee shall not be allowed to charge further meals or a la carte items until the negative account balance is paid.

Negative Account Balances

The school district will make reasonable efforts to notify families when meal account balances are low. Additionally, the school district will make reasonable efforts to collect unpaid meal charges classified as delinquent debt. The school district will coordinate communications with families to resolve the matter of unpaid charges. Families will be notified of an outstanding negative balance once the negative balance reaches \$5.0. Families will be notified by automated notifications, letters sent home, and/or a phone call to the parent/guardian. Negative balances of more than \$20.00 not paid prior to the end of the month will be turned over to the superintendent or superintendent's designee for collection. Options may include: collection agencies, small claims court, or any other legal method permitted by law.

MEAL CHARGES

Communication of the Policy

The policy and supporting information regarding meal charges shall be provided in writing to:

- All households at or before the start of each school year;
- Students and families who transfer into the district, at time of transfer; and
- All staff responsible for enforcing any aspect of the policy.

Records of how and when the policy and supporting information was communicated to households and staff will be retained.

The superintendent may develop an administrative process to implement this policy.

STUDENT SCHOOL TRANSPORTATION ELIGIBILITY

Students living outside the city limits of Essex, or west of Highway 48 and within district boundaries are entitled to transportation to and from their attendance center at the expense of the school district. The superintendent may recommend other stops within the district for approval by the Board of Directors.

Transportation of students who require special education services will generally be provided as for other students, when appropriate. Specialized transportation of a student to and from a special education instructional service is a function of that service and, therefore, an appropriate expenditure of special education instructional funds generated through the weighting plan.

Transportation of a student to and from a special education support service is a function of that service, and is specified in the individualized education program (IEP) or the individualized family service plan (IFSP). When the IEP or IFSP team determines that unique transportation arrangements are required and the arrangements are specified in the IEP or IFSP, the school district will provide one or more of the following transportation arrangements for instructional services and the AEA for support services:

- Transportation from the student's residence to the location of the special education and back to the student's residence, or child care placement for students below the age of six.
- Special assistance or adaptations in getting the student to and from and on and off the vehicle, en route to and from the special education.
- Reimbursement of the actual costs of transportation when by mutual agreement the parents provide transportation for the student to and from the special education.

The school district is not required to provide reimbursement to parents who elect to provide transportation in lieu of agency-provided transportation.

A student may be required, at the board's discretion, to meet a school vehicle without reimbursement up to three-fourths of a mile. The board may require the parent to transport their children up to two miles to connect with school bus vehicles at the expense of the school district when conditions deem it advisable. It is within the discretion of the board to determine such conditions. Parents of students who live where transportation by bus is impracticable or unavailable may be required to furnish transportation to and from the designated attendance center at the expense of the school district. Parents, who transport their children at the expense of the school district, are reimbursed at the rate per mile set by the state.

Transportation arrangements made by agreement with a neighboring school district will follow the terms of the agreement. Students, who choose to attend a school in a school district other than their resident school district, will provide transportation to and from the school at their own expense.

Students participating in extracurricular events, other than those held at the school district facilities, may be transported to the extracurricular event by school district transportation vehicles or by another means approved by the superintendent.

TRANSPORTATION OF NONRESIDENT AND NONPUBLIC SCHOOL STUDENTS

The board has sole discretion to determine the method to be utilized for transporting nonresident and nonpublic students. Nonresident students paying tuition may be, and resident students attending a nonpublic school accredited by the State Department of Education, will be transported on an established public school vehicle route as long as such transportation does not interfere with resident public students' transportation. Nonresident and nonpublic school students will obtain the permission of the superintendent prior to being transported by the school district.

Parents of resident students who provide transportation for their children attending a nonpublic school accredited by the Iowa Department of Education will be reimbursed at the established state rate. This reimbursement is paid only if the school district receives the funds from the state. If less than the amount of funds necessary to fully reimburse parents of the nonpublic students is received by the school district, the funds will be prorated.

The charge to the nonresident students is determined based on the students' pro rata share of the actual costs for transportation. The parents of these students are billed for the student's share of the actual costs of transportation. The billing is according to the schedule developed by the superintendent. It is the responsibility of the superintendent to determine the amount to be charged and report it to the business manager for billing.

Continued transportation of nonresident and nonpublic school students on a public school vehicle route will be subject to resident public school students' transportation needs. The superintendent will make a recommendation annually to the board regarding the method to be used. In making a recommendation to the board, the superintendent will consider the number of students to be transported, the capacity of the school vehicles, the financial condition of the school district and other factors deemed relevant by the board or the superintendent.

School district vehicles may be available to local nonprofit entities which promote cultural, educational, civic, community, or recreational activities for transporting to and from nonschool-sponsored activities within the state as long as the transportation does not interfere with or disrupt the education program of the school district and does not interfere with or delay the transportation of students. The local nonprofit entity must pay the cost of using the school district vehicle as determined by the superintendent. Prior to making the school district transportation vehicle available to the local nonprofit entity, the "school bus" signs will be covered and the flashing warning lamps and the stop arm made inoperable.

TRANSPORTATION IN INCLEMENT WEATHER

School district buses will not operate when weather conditions due to fog, rain, snow, ice, or other natural elements make it unsafe to do so. Because weather conditions may vary around the school district and may change quickly, the best judgment possible will be used with the information available.

The final judgment as to when conditions are unsafe to operate will be made by the superintendent. The superintendent will be assisted by the actual "on location" decisions and reports of the drivers.

Several drivers each year will be specially designated to report weather and road conditions by cell phone when requested to do so. Other employees and students will be notified by commercial radio when school is cancelled or temporarily delayed. When school is cancelled because of weather anywhere in the school district, all schools will be closed.

When weather conditions deteriorate during the day after school has begun, cancellation notices will be announced by commercial radio. Students will be returned to their regular drop-off sites unless weather conditions prevent it. In that case, students will be kept at or returned to school until they are picked up by the parents.
